

Foreword

Message from the NASA Administrator 2012 Agency Honor Awards

Today, as we recognize our friends, colleagues and fellow members of the NASA Family, I want to thank the entire NASA workforce for its outstanding efforts during the past year. Whether it was launching groundbreaking new scientific missions or helping NASA reach milestones in new technology development – you’ve inspired the next generation and continued to move us strongly toward a bright future. I’m proud of you and the agency’s many accomplishments.

Our colleagues’ personal and professional milestones are helping to unfold a new era of space exploration today. Today, we salute the people who work next to us; the people whose

work we admire; on whose teams we’ve labored; and whose achievements have helped renew our commitment to keeping America the leader in space exploration. The NASA workforce is the very best in government, and those we honor today have excelled beyond even that high standard.

Please join me in honoring and thanking the men and women who receive Honor Awards today. They are the heart and soul of NASA. They help all of us do the hard things that our agency is called on to do with enthusiasm and professionalism.

I congratulate everyone who is being recognized today. We are fortunate to have the benefit of your talents, and the entire world is a better place because of our work. It’s my honor to lead this agency and to travel the country to meet so many of you where you work and create the future right now. Together, we are making this nation proud.

Special Thanks

We would like to extend our thanks to the NASA Shared Services Center for coordinating this 2012 Agency Honor Awards Ceremony. Special appreciation goes to the Administrator, the Deputy Administrator, the Military District of Washington's Joint Armed Forces Color Guard, the vocalist, and the ceremony volunteers for their contributions to making today's ceremony a success. The NASA Agency Honor Awards program would not have been possible without the dedication and contributions of the Incentive Awards Board, NASA Expert Panels, Center Review Boards, and the NASA Awards Community. To the Honorees, we thank you for participating in today's event, and we wish you much continued success in the future.
